Hi John,

I have attached distance and concentration graph for your review.

Nice weekend.

Haile

This is great Haile! I already had calculated distances as well so this will be a great mutual check. Thanks very much!

Hi John,

I checked the lat/long of Industry stacks using Google earth and the values you have are correct. I also calculated the distance from each facility using GIS and I have attached the results.

Best,

Haile

Subject: Updated data

Hi Haile,

I am attaching the most up-to-date data for soils PFAS that I know of.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I just received an email from our QA person that she might have the soil CIPFPECA data QA'd this week or next week. I will keep you posted on this.

Thanks!

John

Hi Haile,

Thanks for your time on the phone today.

As I mentioned, I understand that you probably have other pressing obligations/objectives, so I appreciate you entertaining trying to move the NJ mapping effort along during September. And I understand if other obligations preclude this.

So here are my thoughts (open to suggestions):

Ex. 5 Deliberative Process (DP)

Please do not hesitate to call me at all. It would be great if we can bang out a nice draft in September!

John

Hi Haile,

Do you have time to talk today? I have a meeting that will take my time from 12:45 until 2:15, but otherwise I am open.

John

Hi Tim,

In response to your request, attached are recent working maps for New Jersey generated by Haile Tadesse. They are getting closer to our final product.

John

Dear All,

I have attached the modified maps for the soil data for your review. Please also verify the geographic coordinates for the water samples and let me know.

Best,

Haile

Hi Haile and Drew,

I am attaching Mark and James' NJ water CIPFECA data (from Kate Sullivan's draft NJ report) and the lat/long data (NJ sent me).

Ex. 5 Deliberative Process (DP)

Haile don't feel pressure to process these water data for Monday unless you feel so inspired.

For general interest, I am attaching a News article from the journal Nature on nontargeted analyses for novel perfluoros, quoting Mark!

Sounds good, John. Is Monday too soon for Haile to update his NJ maps?

When: Monday, June 24, 2019 11:00 AM-12:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where: D340L

Hey Drew,

I am hoping we can spend most of this time on New Jersey unless it turns out to be easy. I am working intensively on a draft manuscript that I hope will include a version of this map and you as authors. I plan to send Haile and you Mark Strynar and James McCord's New Jersey water CIPFPECA data, as well as the lat/long NJ has reported for these samples. I just got off the phone with Mark and he is agreeable to all of this.

Thanks!

John
